EDUCATION

CMR Institute of Technology

B.Tech – Computer Science and Engineering; **CGPA: 7.7/10**

Sri Chaitanya Junior Kalasala

Intermediate; **Percentage: 97.2**

Hyderabad, India

2024 – 2028

Hyderabad, India

2022 – 2024

SKILLS SUMMARY

- **Languages:** JavaScript, TypeScript, Java, Python, C, HTML, CSS, SQL
- **Frameworks:** React.js, Node.js, Express.js, Tailwind CSS, GSAP, Three.js, React Three Fiber
- **AI / GenAI :** LLM APIs, OpenRouter, Prompt Engineering, AI Integration, Generative AI
- **Tools & Platforms:** Git, GitHub, VS Code, Vercel, Salesforce
- **Core Concepts:** DSA, OOP, REST APIs, Authentication, Web Development, Responsive Design

WORK EXPERIENCE

SOFTWARE DEVELOPMENT INTERN | Feel Good Labs

July 2026 - Present

- Developed and enhanced web application features using **React, JavaScript, HTML, and CSS**, focusing on responsive and user-friendly interfaces.
- Integrated frontend components with backend services and APIs to support application functionality.
- Working on an **AI-powered chatbot project**, exploring LLM integration and AI-driven user interactions.
- Collaborated with the development team to implement features, debug issues, and improve application usability. .
- Used **Git and GitHub** for version control and collaborative development.

SalesPulse AI | [Live Link](#)

AI-Powered Sales Intelligence Dashboard

- Developed an AI-powered sales intelligence platform integrating **Salesforce CRM data** with an interactive web dashboard.
- Built responsive dashboards using **React/Next.js and TypeScript** to visualize customers, opportunities, sales activity, and business insights.
- Integrated **Salesforce OAuth** to enable authenticated access to CRM data and personalized sales workflows.
- Integrated **LLM capabilities through OpenRouter** to generate customer intelligence, sales recommendations, and AI-assisted proposals.

Lithos | [Live Link](#)

Immersive 3D Virtual Rock & Mineral Museum

- Developed an interactive virtual museum that transforms rocks and minerals into an **immersive 3D web experience**.
- Built the 3D environment using **React Three Fiber and Three.js**, enabling users to explore and interact with digital mineral models.
- Integrated **GLB 3D assets** and implemented interactive camera and navigation controls for an immersive exploration experience.
- Designed an engaging educational interface combining **3D visualization, web technologies, and interactive storytelling**.

ShadowNet | [Live Link](#)

Cybersecurity Monitoring & Threat Intelligence Dashboard

- Developed an interactive cybersecurity dashboard using **HTML, CSS, and JavaScript** to visualize security events and threat intelligence data.
- Implemented data-driven dashboards using **structured JSON datasets** to simulate and present security incidents, alerts, and threat information.

- Designed responsive UI components for monitoring cybersecurity metrics and providing a clear overview of potential threats.
- Applied filtering and interactive visualization techniques to help users analyze security events and identify relevant threat patterns.

CERTIFICATIONS / ACHIEVEMENTS

Glitch 2K26 — Winner

February 2026

- Won the Glitch 2K26 hackathon by developing **ShadowNet** and presenting a technical project under a competitive development environment.

Claude 101 — Anthropic |

June 2026

- Completed foundational training on Claude, prompting techniques, and practical AI-assisted workflows.
